USER CAUTIONS :

- These survey results should not be used for direct comparisons between, or rankings of, faculty. Many factors (including class size, class level, instructor gender, whether the class is required, and the students's class, expected grade, GPA, major, and gender) are known to bias survey responses. No attempt has been made to analyze for these factors.
- The enrollment for each course was captured at the time teacher evaluations were performed and may not match the final enrollment.
- The "Overall Rating" is taken as an average of the responses for question 11 (How would you rate the instructor's overall performance in this course?).

 - none.
 - none. Except that it was at 8 in the morning.
 - very difficult. a lot of information to know
- ★★★★★ Excellent
 - He uses foul language in class and the way he tells students that their answer is wrong discourages them from asking questions in the future.
 - He would often start talking about something irrelevant and take up class time.
 - The book for the course was unnecessary and not helpful in any form.
 - The tests were difficult. Some times I had a hard time understanding the question much less the options for the answers on the multiple choice questions.
- ★★★★★ Good
 - He is a bit arrogant. Sometimes, he talks down to us. I think that he may be so used to teaching at a faster pace with grad students that he becomes very frustrated with us, and when this happens, he almost builds a wall between himself and the students. Maybe someone else would be better suited for teaching the class- someone who is used to working

- o with undergrads.
 - o I think the grading scale for this course was terrible and did not demonstrate a student's true understanding for the subject.
 - o Pop Quizzes
 - o Try to teach the class more on an undergraduate level since that's what it is. Be more open to student's responses and questions.
 - o confusing
 - o na
- ★★☆☆ Marginal
 - o i thought he was rude--when tried to answer questions or even ask questions the response would be very condescending, he made me feel stupid or would not even take my answer or question; he would go way off on topics that were irrelevant to our discussion; was not fair in the grading--let some people before midterm retake a quiz and let some retake a midterm but would not let others after the midterm retake a quiz; we didn't get back our quizzes to see what we missed; notes were unhelpful;

- ★☆☆☆ Poor

3. What specific changes would you like to see made in the course?

- ★★★★★ Superior
 - o I think if the class were smaller, it wouldn't take as long to grade tests and class discussions would be more involved. Also, we never used the two books that were required for this class.
 - o Make it more towards the stuttering end of it...It's way more interesting than the phonation stuff!
 - o Some what go along with the book
 - o more tests would have helped. only 2 were hard to do well on.
 - o none
 - o none.
- ★★★★★ Excellent
 - o Better books, a clean mouth, and a nicer way of telling people they are wrong.
 - o Give the quizzes back so the students can see what questions they got wrong.
 - o I would split the first half of the material into two test rather than just one.
 - o Less quizzes
- ★★★☆☆ Good
 - o Have the students more involved in the class..maybe one group project or so.
 - o Pop Quizzes should be lessened and extra credit added to the syllabus.
 - o The teacher's arrogance drastically chnaged!!!!!!!!!! He is NOT very understanding or patient with his students, which makes it hard for us to talk with him.
 - o more structure in the class ciriculum
