USER CAUTIONS :

- These survey results should not be used for direct comparisons between, or rankings of, faculty. Many factors (including class size, class level, instructor gender, whether the class is required, and the students's class, expected grade, GPA, major, and gender) are known to bias survey responses. No attempt has been made to analyze for these factors.
- The enrollment for each course was captured at the time teacher evaluations were performed and may not match the final enrollment.
- The "Overall Rating" is taken as an average of the responses for question 11 (How would you rate the instructor's overall performance in this course?).

4. What do you want other students to know about your experience in this class?

- ★★★★★ Superior
 - Dr. Snyder's personal insight and experience adds so much to what otherwise might be a boring class. I was not too terribly excited to take a class about this topic, but Dr. Snyder made class interesting and easier to be attentive during. Also, if it had been taught by anyone else it may have been very difficult to make the 8am commute to class, however Dr. Snyder's teaching style made it easier to get going. Plus, there were frequent quizzes--another motivating factor!! Do not stress about this class. Instead, pay attention, review your notes every day, don't give up so easy on the quiz questions, and study well for both tests!!!! There is not much outside homework for this class, which makes it nice.
 - I had a great experience in this class.
 - It was a very enjoyable class. Dr. Snyder is super nice and funny. He has a lot of stories pertaining to what he is teaching and it helps you to get an idea of what he is talking about in a real world situation. His sense of humor really helps you to not be bored in this class. It is actually interesting.
 - There are quizzes, and you have to have your clicker! You really need to study for the quizzes because the more you study the easier it will be to study for the test.
 - This class is an incredible experience. You'll be surprised about how much information you'll learn in such a short amount of time.
 - This class was great! Dr. Snyder is very enthusiastic about his work and that made learning easier and more fun! He is very good about reviewing previous material at the beginning of class. Be prepared to study for weekly quizzes and that will make studying for the midterm and final much easier! This is an excellent class!!

 - Remember he is on the graduate school selection committee! Be a professional. Don't take his sarcasm too seriously.
