**USER CAUTIONS :**

- These survey results should not be used for direct comparisons between, or rankings of, faculty. Many factors (including class size, class level, instructor gender, whether the class is required, and the students's class, expected grade, GPA, major, and gender) are known to bias survey responses. No attempt has been made to analyze for these factors.
- The enrollment for each course was captured at the time teacher evaluations were performed and may not match the final enrollment.
- The "Overall Rating" is taken as an average of the responses for question 11 (How would you rate the instructor's overall performance in this course?).

Pay attention to everything he says, because if you do not, the class will seem hard to you. Dr. Snyder can be tough, but you can do it. Go to class and take GREAT notes and study everyday if you have to, and you will be fine!!!! Good Luck!!! :)
